

SAVE OUR VOTE!

NON-PARTISAN "Vote-Count Protection" effort, designed to provide "checks and balances" to the secret vote counting inside electronic voting machines.

You can spend just a few hours on election day to help ensure vote counts are accurate:

Project Post: 1 to 2 hours to capture "posted results" at polling places at the end of the evening.

Citizen Exit Poll: 4 to 6 hours participating in citizen-run election-verification exit polls (using professional polling methodology).

No skills necessary!

Spread the word! Tell your friends, students, co-workers interested in "Doing Democracy!"
